

# Genius Methods

## Board Effectiveness

### Seminar

**Genius Methods invites you to an interactive, half-day training course on everything you need to know about Board Effectiveness**

#### Key Course Outcomes

- What contributes to an effective Board?
- How to deal with dysfunctional relationships
- Balancing delegation and accountability
- How to ensure Director independence
- Recognise best practice & market expectations
- Focusing Board's role in strategy & leadership
- Appropriate oversight, control & feedback
- Information required to be an effective Board

#### Know what "Good" looks like

This will be a unique opportunity to learn from experienced board consultants and evaluators, Genius Methods, about the value of Board Effectiveness, understand today's "best practice", need for competent leadership and how your Board can achieve optimum effectiveness.

The course provides the opportunity for each delegate to get independent advice on any Board issues being faced. Each delegate gets to focus on a key personal learning to make their own difference. We ensure a clear "take home" action plan.

The case study, the follow up "event" and group working session ensures each delegate can understand the way the different Director roles on the Board can and should react to a given unexpected event.
